SUMMARY

Junior Frontend Developer with hands-on experience building responsive web applications using React and Next.js. Strong foundation in JavaScript, UI development, and API integration. Background in Computer System Engineering and currently working as an ICT teacher, combining technical expertise with strong communication and problem-solving skills.

TECHNICAL SKILLS

FRONTEND

JavaScript (ES6+), React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

BACKEND (BASIC)

Node.js (basic), Flask, Laravel

DATABASE

MySQL, MongoDB, Firebase

TOOLS

Git, GitHub, VS Code, Vercel

PROJECTS

SMARTLAMP AUTOMATION

<https://github.com/kisnak21/smartlamp-website>

- Built web interface for IoT smart lamp system
- Developed frontend UI and integrated Flask backend
- Applied machine learning model (C5.0) for behavior prediction

PTNBH UNTAN

https://github.com/Code-Untuk-Indonesia/admin_ptnbh

- Designed and developed responsive admin dashboard using React and REST API integration
- Built reusable and modular UI components to improve maintainability
- Helped streamline academic data workflows for university administrators

TEMAN BICARA

<https://github.com/Teman-Bicara/teman-bicara>

- Built forum-based web platform using React and TailwindCSS
- Managed component state using React Hooks (useState, useEffect)
- Implemented authentication and state management
- Integrated Strapi CMS for content management
- Designed responsive UI for mobile-first experience

EXPERIENCE

PELITA CEMERLANG SCHOOL – Kubu Raya, West Kalimantan

ICT Teacher (Jul 2025 – Now)

Key responsibilities:

- Teach coding fundamentals and digital literacy
- Develop interactive learning materials using web technologies

SMK TUNAS KASIH – Kubu Raya, West Kalimantan

Contract Computer Teacher (August 2024 – June 2025)

Key responsibilities:

- Delivered programming and technology lessons
- Guided students in practical coding projects

KANTOR DESA SEMITAU HULU – Kapuas Hulu, West Kalimantan

Intern Web Developer (November 2021 – January 2022)

Key responsibilities:

- Maintained and improved village website
- Developed features using HTML, CSS, JavaScript.

EDUCATION

UNIVERSITAS TANJUNGPURA – Pontianak, West Kalimantan

Bachelor of Computer System Engineering, **3.38/4.00** (August 2019 - January 2024)

CERTIFICATIONS

FRONTEND EXPERT

<https://www.dicoding.com/certificates/JMZVN1EONPN9>

- Completed an in-depth course focused on developing highly responsive, accessible, and high-performance web applications. Gained expertise in mobile-first design, clean JavaScript practices, Progressive Web Apps (PWAs), automation testing, and Continuous Integration/Continuous Deployment (CI/CD) workflows. Final project involved creating a restaurant catalog web app with optimal functionality and user experience for mobile devices.

PUBLICATION

IMPLEMENTATION OF THE C5.0 ALGORITHM ON WEBSITE-BASED SMART LAMPS

<https://jurnal.polsri.ac.id/index.php/jupiter/article/view/8313>

- Published research on machine learning-based smart automation system (98.61% accuracy).
